Worldwide Home Exchange Club for Independent Schools

www.homes-club.com

Homes-Club International, the first home exchange Club for those connected with Independent Schools around the world, launches its new network on November 24th this year.

Homes-Club offers parents, alumni, staff and governors of Independent Schools the opportunity to exchange homes with fellow Club Members globally. Similar-minded individuals around the world can become Members and save money when they go on holidays. These savings are useful in the current economic climate, while Members also holiday in comfort without the formality of hotels. Home details are on a secure, password-protected website which only Members can view.

Schools benefit from the association as well because, once five Members have joined from a School's community, Homes-Club makes a donation to the School for each of its additional Members who joins or renews their Membership. It is thus a win-win for everyone.

While it is building its Member base and the number of listed homes, Homes-Club is offering special annual Membership rates. Until 31st December, the Membership fee will be only £25, versus the usual fee of £100, which is a saving of 75%. Individuals, Schools and their Associations around the world (including the US, Canada, South Africa, the Caribbean, Australia, and Europe) are currently being contacted to gain critical mass as quickly as possible.

For further information, contact info@homes-club.com.

The website www.homes-club.com will be available from 24th November.
