

CODE OF CONDUCT FOR STUDENTS

From its foundation in 1998 the International School of Cape Town has been run on the principle of mutual trust and respect: *“Love your neighbour as you love yourself” (Mark 12.31).*

The following Guidelines, Rules and Procedures have been drawn up into a *Code of Conduct* in order that the School may run efficiently by providing a happy, caring, stimulating and secure school environment with a consistent, well disciplined and effective organization. They remain in force from the time a student leaves the care of his/her parents or guardian until he/she returns. They apply during all official School organized visits/excursions in or out of term time. This *Code of Conduct* is given to all students and their parents and serves as a contract between the student and his / her parents with the School.

Guidelines

1. All students must consider the needs and rights of other students and staff before their own and their attitudes and behaviour must show this consideration.
2. Any breach of the *Code of Conduct* will be seen as a breach of the mutual trust and respect which exists between us all and individuals concerned will be disciplined accordingly.
3. Likewise, notable examples of good behaviour, high standards and outstanding performance will receive due acknowledgement and honour.
4. Where a student acts in a way that is unacceptable, relevant staff will investigate that particular situation and impose the most appropriate sanction, according to the guidelines concerning unacceptable behaviour of students.
5. The School does set down some areas of discipline that are viewed most seriously, as well as the likely consequences for infringements. Clearly, the circumstance, the severity of the offence and the degree of either willfulness or thoughtlessness particular to each situation will determine the actual penalty.
6. The rules apply to all students under the jurisdiction of the school: students are under the jurisdiction of the school at all times while on the campus, in school transport, coming to school and going home from school in school uniform, or on any school organized trips. It is expected that all students when off the campus will behave in a manner which will bring honour to the school.

Rules

1. Students must keep within the prescribed *School Bounds*. This means that students must remain, during the school day, within the school premises and out of the out-of-bound areas (which includes the area behind the tennis court.)
2. Students should be outside the school building during breaks – except for wet breaks and cold breaks, during which students should be in classrooms designated for this purpose at these times.
3. Students must be punctual at all times.
4. Other than students on official School visits, all students leaving the premises before the end of School must have the permission of their Class Tutor or member of Management and must report to the Receptionist (with their permission slip) and wait there for their parent to pick them up. On leaving, the parent needs to sign their child out.
5. Cigarettes, lighters, matches, alcohol, solvents, unauthorized drugs and weapons are regarded by the School as illegal. This means that the purchase, possession, distribution and use of any of the

previously mentioned is forbidden. The School reserves the right to carry out spot checks for these banned substances and materials as necessary. The Principal reserves the right to exclude any student from the School who is found in transgression of this regulation, even as a result of a first offence.

6. The above regulation applies in all situations where the student falls under the authority of the International School of Cape Town, whether the student is in school uniform or not.
7. Primary school students are not permitted to carry cell phones.
8. The school will not dispense any medication unless this is provided by the parent and written permission to this accompanies the medication. Any student bringing medication to school must have the written permission of their parent / guardian to do so. Students use these medications at their own risk and they should keep them secure from use by other students. Any unauthorized medication will be taken from the student and returned to the parent at the earliest opportunity.
9. Any student behaving in such a way as to bring the good name of the School into disrepute will face serious disciplinary action.
10. Any form of bullying – physical, verbal or emotional - is forbidden.
11. Any form of dishonesty or cheating is totally unacceptable.
12. Physical contact between students should be appropriate and entirely platonic in nature. Platonic affection is defined as that which occurs between friends and is non-sexual in nature.
13. The use of abusive language is forbidden.
14. Disruptive behaviour in class that interferes with other students' right to learn is unacceptable and appropriate action will be taken to resolve the issue.
15. Destruction of property, defacing of desks, walls, books and vandalism of any kind is a serious offence and will be dealt with accordingly.
