

ENGINEERING WITH

Presented by

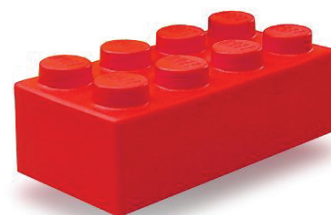

Future Engineers

We make engineering fun!

Join us in 2019 with New Lessons!

What is Engineering with LEGOS?

- Classes for Grades 1-2 students.
- Children will be taught STEM curriculum.
- Each 60 min. lesson is tailored to the skill level of students.
- LEGOs help teach these concepts in a way children will understand and enjoy!

Why Engineering with LEGOS?

Engineering Requires:

- Creativity
- Observation + Prediction
- Following Directions
- Critical Thinking

Concepts Taught:

- Engineering (Gears & Pulleys)
- Science, Math, Architecture
- Simple Machines
- Storytelling + Language Arts
