HOW DOES MONKEYNASTIX WORK?

Monkeynastix offers three separate curriculums for ages 1-2, 3-6 & 7-8. A qualified instructor will come to your child's school or public venue to run one fun-filled session per week. To get the maximum benefit out of our programme, our members are encouraged to complete at least one Monkeynastix cycle of two years.

POSITIVE REINFORCEMENT THROUGH RECOGNITION

We believe in rewarding children to build their self-esteem. Each child receives a special sticker or hand-out at the end of every session. A Monkeynastix participation certificate will be awarded to your child at the end of each term. At the end of year, your child will receive an awesome Monkeynastix medal.

WHAT IS MONKEYNASTIX MNX001?

It is a fun and exciting addition to the existing Monkeynastix Programme.

New products and activities, have been added to our lessons to create an **adventure with a purpose**.

This includes, fostering a love for the Universe, the Earth and preserving it (recycling initiative).

"It is a fun and exciting addition to the existing

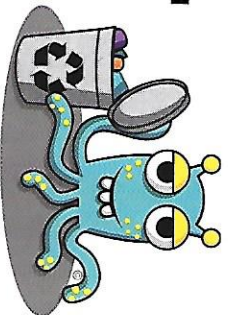

Monkeynastix Programme" Instructors now make time during our lessons for new elements of engineering and creativity to empower the children to be creative

in assembling their own hand apparatus or assist in assembling larger pieces of equipment.

Most of the equipment is made mostly from recycled materials with a Space Theme. We believe that MNX001 will change the way kids think, play and participate in activities at schools. They will create, cooperate, innovate, learn, share, teach, give, receive and move!

It will build confidence, improve concentration and tap into their unlimited imagination.

Security concerns limit the free exploration of the environment for children.

Children have increasingly less access to la gardens & jung equipment
