

Congratulations to our Year 12 and Y13 classes of 2020!

Our AS and A level results for the November 2020 Cambridge Assessment International Exams were released on Monday 11th. It was with some nervous expectation and anticipation that we awaited this release after the unusual challenges we all faced with the mixed experience of teaching fully online, on-off class-based and online and finally with most students back in daily face-to-face classes.

What can we say except we are blown away by our students' results! Here's a quick summary analysis of the overall results across all subjects to show you why.

	No of ISCT subject entries	Number of A grades (A* is not available at AS level)	Number of B grades	Number of C grades	% A - D grades (meeting SA matriculation exemption requirements)
AS levels	102	45	24	22	95%
		Number of A grades (A* is not available at AS level)	Number of B grades	Number of C grades	% A*– E grades (meeting SA matriculation exemption requirements)
A levels	25	12	7	4	100%

Comparison to 2019 results

We are proud to announce that the 44 % AS level subject A grades is 22% up on the % of 2019 A grades; while the 46% A level A*-A grades is a whopping 33% higher than

the % of 2019. Remarkable. Well done to the Keystage 5 classes of 2020 and to our dedicated teachers who invest so much expertise, time and emotional energy into helping each of their students achieve at their best.

Students who deserve special mention:

AS (Year 12) students with 3 A Grades and more:

David Ascott (5 subjects)	English Language A Biology A Chemistry B Mathematics A Physics B
Jade Bodard (5 subjects)	Biology A Chemistry A Physics A English Language B Mathematics B
Marta De Grandi (5 subjects)	Business A History A Literature A Mathematics B Spanish A
Jarrod Houghton	Business A Computer Science A Mathematics C Physics A
Jessica Reece Miller	Biology A Chemistry A Mathematics A Physics A
Jinho Son (5 subjects)	Biology A Chemistry A Computer Science A Mathematics A Physics A
Jimi Tison	French A History A Literature A Business C
Fritz Volcker (5 subjects)	German (A level) A* Chemistry A Computer Science A Mathematics A Physics A

A level (Y13) students with 2 A grades or higher

Khalid Al Talib	Computer Science A* Mathematics A Physics A*
Thandi Carklin	Geography A History A Spanish B
Min Kim	French A Computer Science A and Mathematics A (June 2020)
Sarah Osojnik	History A Literature A Geography A

Lance Hendricks also deserves a special mention for his A grade in AS Afrikaans which he wrote early at the end of Year 11.
